## Data Monitoring Packet

**July, 2003**  
**Statewide Implementation**

*Prepared by:*

Policy Analysis and Program Evaluation Division  
Michigan Family Independence Agency

# Project Zero

**P**roject Zero is a part of the Family Independence Agency's continuing welfare reform initiative, *To Strengthen Michigan Families (TSMF)*, which assists recipients making the transition from dependency to self-sufficiency.

Project Zero began in 1996 as a small research project in six areas of the state designed to identify certain personal characteristics, demographic information, recipient strengths and barriers to employment--real and perceived--of FIP recipients.

The purpose of Project Zero is twofold. First, it is to identify, through the survey noted above, barriers to employment that are unique to recipients without earned income. Secondly, the project utilized the data findings to assist state agencies and community organizations to develop and implement programs and services in all sites aimed at decreasing the number of recipients without earned income.

The first six Project Zero sites became operational in July, 1996 and additional sites were phased in over a period of years. Final statewide implementation was complete in October, 2000.

## Project Zero Data Monitoring Packet

Data for the Project Zero data monitoring packet is obtained from the Family Independence Agency's Client Information System (CIS). The information is point-in-time data and is obtained at the beginning of each month. This data reflects the case transactions that occurred during the previous month.

Due to the nature of the public assistance caseload, the data displayed here represents a picture of a population that is constantly changing. Families move on and off public assistance, gain or lose employment and move into or out of the project area. Cases that are transferred into a project site from other parts of the state are immediately counted as part of the target caseload.

With statewide implementation (effective October 1, 2000) Project Zero is now a service delivery mechanism for all clients. The goal is 100 percent employment for all target cases. However, there are additional measures of success in Project Zero, including:

- The drop in the number and percentage of cases without earned income.
- Movement of recipients out of public assistance as demonstrated by the declining caseload.

- An increasing number of recipients who achieve self-sufficiency and improved lives for themselves and their children.
- Community collaboration and responsibility in developing support systems and removing employment barriers.

The goal of Project Zero is to reduce to zero the number of FIP households that have **no** earned income. Thus all cases required to work will be employed and have earned income. Cases are required to work if there is **any member** age 16 or older who:

- is a mandatory Work First participant *or*
- is not employed full time *or*
- is sanctioned or penalized *and*
- the case is open more than 60 days.

The formula for determining the number of cases required to work is:

***(FIP cases) minus (cases open less than 60 days) minus (Work First deferred cases, i.e., those not required to work).***

Recipients are deferred from Work First or are meeting participation requirements and are **not** required to work if they meet one of the criteria listed below:

- Parent of a child under 3 months.
- Single parent who personally provides care for a child under age 6 when adequate child care is not available.
- Under 16 or over 65 years of age.
- Full-time students between the ages of 16 and 18.
- Minor parent who is in school full-time.
- Temporary incapacity (expected to last 3 months or less).
- Applicant for SSI through the Social Security Administration.
- Providing care for an incapacitated spouse: *Note – Effective 10/01/02 the deferral for caring for an incapacitated spouse will require an assessment of need.*
- Providing care for an SSI child or a child eligible for the Early-On program: *This deferral is changed from automatic to mandating an assessment of the circumstances in the family. Parents must participate in Work First unless they are participating in Early On activity or are needed in the home to care for the child on SSI. Parents with children in school or able to attend day care will only be deferred to the extent that parental care is needed.*
- Full-time volunteer for VISTA, Job Corps or AmeriCorp.

- Participants in transitional housing programs funded by HUD or MSHDA.
- Experiencing a temporary critical event, such as homelessness or domestic violence (deferral of up to 3 months at local office discretion).

The focus of Project Zero is on achieving 100% employment for clients in the project sites who are required to work. To help clients obtain employment, FIA staff will be working with them to eliminate barriers to employment and promote independence.

Additional resources are being developed within the agency as well as efforts to coordinate with other departments such as Transportation, MSHDA, and the Department of Career Development. Community agencies are also being asked for their assistance in providing resources for the project effort. Training in Strength Based/Solution Focused programs has taken place for staff involved in the project.
